

INCREASE YOUR PREDICTIVE INDEX® KNOWLEDGE — ONLINE

PI Worldwide
People Smart. Results Driven.®

**INCREASE THE POWER OF
THE PREDICTIVE INDEX®
THROUGH FLEXIBLE NEW
E-LEARNING OFFERINGS
FROM PI WORLDWIDE.**

Enhance and deepen awareness of the power of the Predictive Index® (PI®) at all levels of your organization with our new PI *SkillBuilder*™ online courses. Each 30-minute session delivers powerful proprietary content, interactive practice, and comprehensive information to increase the learner's ability to apply PI and tackle business challenges within your organization. Delivered through the online PI Worldwide Learning Center, access to these e-learning courses is fast and convenient. A Knowledge Check at the end of each course allows learners and their managers to assess and track learning results.

For trained PI Analysts, refresh proprietary core concepts, methodologies, and the many business applications of the PI. For non-analysts, increase awareness of behavioral assessments and how the Predictive Index can be used as a management tool to guide decisions throughout the talent life cycle. PI *Skillbuilder* online courses benefit veteran and new clients alike, educating managers at all levels about how the insights revealed by the Predictive Index can be harnessed to drive business results.

PI *Skillbuilder*. Anytime. Anywhere. A convenient, efficient, and powerful investment in your employees, enhancing and leveraging the power of the Predictive Index at all levels of your organization.

Here's what we're hearing about
PI *Skillbuilder*...

“ *Predictive Index Review* reminded me that answers to day to day challenges are available by looking back at the PI.”

“ *Behavioral Science and the Predictive Index* gave a great overview of the changes in business environment, workforce needs, and provided a great call to action for managers to learn more about the role behavior and how motivation plays a key role in employee productivity.”

“ As a result of taking PI Worldwide's *Delivering Powerful Feedback* I will be a better communicator of PI results. The visual and interactive material had significant impact, allowing me to learn a lot in a short amount of time.”

The PI® e-learning options offer you a way to extend your investment in the Predictive Index® system by reinforcing and building upon the concepts and skills presented in behavioral science and the PI Management Workshop™. Through stimulating lessons and interactive practice, learners review concepts, refresh skills, and extend their application for business advantage.

Introduction to Behavioral Science and the Predictive Index®

Available to all clients, in this course learners discover:

- History of behavioral science
- How behavioral science applies to business
- Components of the Predictive Index system
- Applications and uses of PI
- PI case studies
- Knowledge Check

“...Great call to action for managers to learn more about the role behavior and motivation plays in employee productivity.”

PI SkillBuilder™: Predictive Index Review

In this course, trained PI Analysts review the core concepts of PI:

- Primary Factors of the Predictive Index
- Factor Emphasis Combinations
- A/D Relationship
- “Cutback D”
- Resultant Factors
- Reference Patterns
- Knowledge Check

“...Loved it. Great review. My PI foundation all came back to me after this module.”

PI SkillBuilder: Delivering Powerful PI Feedback

In this course, PI Analysts enhance their feedback skills:

- Prepare to give PI feedback
- Read the Self, the Self-Concept, and the Synthesis patterns
- Understand complex patterns
- Delivering PI feedback confidently and successfully
- Test Their Knowledge

“...Good review of all aspects of giving feedback, supported by strong examples.”
